

riva bathlift

Make your bathing experience safe from falls. Why just use a shower chair and sit above your tub – enjoy the therapeutic effects of a hot bath to wash away the stress of the day. **Riva bathlift** will gently lower you into your tub and then safely raise you back up to the top of the tub. Warm water can help alleviate aches and pains, and with Riva, you don't have to worry about slipping in the tub.

Features

Enjoying a safe bath is as easy as a ride down into the warm water. Riva is operated with a push button hand control. It slowly lowers you safely to the bottom of your tub. No worries about getting stuck, a safety feature will not allow the unit to lower if there is not enough power to rise again. A rechargeable battery provides enough power for several trips and plugs into a wall charger for quick replenishment. The seat smoothly rides along the frame. Side wings on the seat create a seamless connection from seat to side of tub. The back support sits at a 10 degree angle. RIVA dismantles into four pieces for traveling or storage.

Components

Riva consists of a molded seat with back, aluminum frame, quiet battery-powered motor that moves the seat up and down, and a push button remote. A rechargeable battery slips into the back compartment. The hand control has a safety indicator that will light when the battery needs to be charged or replaced. Suction cups secure the frame to the floor of your tub. Patented self release feature makes the suction cups easy to remove from the bottom of your tub.

The four components can be assembled without tools. The seat and back have a textured surface for non slip seating. Optional white mesh covers provide more comfort. Accessory height adapters can raise the unit to accommodate tubs up to 18.5" deep. All parts can be cleaned with standard household cleaners. Covers are machine washable.

Warranty

RIVA bathlift has a limited warranty starting from date of purchase. The actuator and hand control are warranted for 3 years. The seat, backrest, and lifting frame are warranted for 1 year. Excluded from this warranty are the battery and case, suction cups, optional covers and any replacement parts.
