ABOUT US

SafetyBath is the pioneer and inventor of the Walk-In-Tub. We have been manufacturing and assembling premium Walk-In-Tubs since 1992. We offer a wide variety of quality products that fit any application, from economy to luxury, personal to commercial. We continue to be the industry leader by never settling for good enough. We are always looking for ways to make bathing safer, and more enjoyable. Enjoy the accessibility and independence of bathing safely while staying in the comfort of your own home.

FEATURES

Lifetime Limited Warranty
All Safety Bath Walk-In-Tubs carry a lifetime limited warranty.

Aluminum Door
We use an Aluminum Door System to ensure a tight reliable seal that is guaranteed for life. An automatic safety lock is featured on all outward swinging doors.

High Quality
We use only the best quality materials and construction methods. Our tubs are made of Acrylic, reinforced with fibreglass, built on a stainless steel frame.

High flow Tap / 2” Quick Drain
Our High Flow Tap is designed to produce a flow rate of 14gpm. This allows your Walk-In-Tub to fill up quickly, and the 2” Quick Drain allows the tub to drain just as fast.
OPTIONS

Heated Seat
Experience gentle, therapeutic warmth at the press of a button with the heated seat system. The soothing heat keeps you warm throughout your bath and relaxes aching muscles.

Warm Air Massage Jets
The system has variable power settings, a soft relaxing massage, smooth tension releasing massage, or more invigorating massage to fit everyone’s preference. The air massage system is hygienic and maintenance free since no water enters the system and a purge cycle automatically runs after every bath to dry the jets.

Heated Water Massage Jets
This whirlpool system pumps water through jets giving you various levels of massage. The wave setting goes from soft to firm and back creating a true massage like experience. The system is amazing for relaxing muscles and reducing stress, creating a happier, healthier you.

Aromatherapy
Scents for the pleasure of your senses. The role of aromatherapy is to stimulate and reinforce our bodies' natural defenses by inducing a state of relaxation and general well-being of the central nervous system.

Chromatherapy
Therapy by colour. Each colour corresponds to a vibration with its own speed, wave length, or rhythm. The colours influence us either physically, psychologically, or emotionally allowing our own vital energies to reach a level of self-healing.
BUILD THE PERFECT BATH

Choose the Panama Walk-in-Tub for the most accessible and easiest entry walk-in-tub on the market with its OUTWARD-SWINGING aluminum door.
